**Referenznummer:**

## **ALTEN Group**

In 30 years, ALTEN has become a leader in both outsourced engineering and IT services for businesses. With 54,000 employees (88% of whom are engineers), ALTEN carries out complex and highly technical projects throughout the entire value chain for 6,500 clients, including some of the most prestigious companies across all industrial sectors, services, and telecommunications. We work with key players in the Aeronautics & Space, Defense & Naval, Security, Automotive, Railway, Energy, Life Sciences, Finance, Retail, Telecommunications, and Services sectors.

## **ALTEN Switzerland**

Since 2005, with 450 employees, ALTEN Switzerland has been a key partner in delivering engineering services to 100 leading global companies. ALTEN Switzerland's activities cover all major strategic areas of the Swiss market in the Life Sciences, Engineering, and IT Services sectors.

The selected candidate will be responsible for coordinating and harmonizing all projects while providing their expertise and global vision of production flows to contribute to the development of industrial strategies.

### **Responsibilities**

- Optimize manufacturing processes and manage resources efficiently
- Propose proactive anticipation strategies
- Ensure accurate visibility of all projects within the planning process
- Update and improve all data required for planning
- Actively participate in cross-functional projects related to planning

## **Qualifications**

- Degree in engineering or production science/management
- 2 to 6 years of experience in a similar position
- Skills in data analysis and inventory management
- Proficiency in ERP systems, Excel, PowerPoint, and reporting tools
- Good understanding of logistics and production flows

## **What We Offer**

At ALTEN, we offer the security of a permanent contract while giving you the freedom to work with several prestigious clients. With a large network of offices worldwide, we offer opportunities for national and international professional experiences. We operate in a highly innovative market, always at the forefront of the latest technologies, allowing you to become a pioneer in your field.

We provide our employees with sought-after training programs and workshops, ranging from technical skills to soft skills, with certificates that enhance your qualifications and enable you to participate in innovative projects.

Apply now and join our incredible adventure. We believe in collective growth!
