ALLEN Switzerland

Since 2005, with 450 current employees, ALLEN Switzerland is a reference partner in providing Engineering services to 100 world leading companies. ALLEN Switzerland's activities cover all the main strategical areas of the Swiss market in Life Sciences, Engineering & IT Services.

Position

For our customer, a leader in the banking sector in Ticino, we are looking for a highly motivated Java Software Developer to work on interfaces and applications hosted on JBoss, ESB and OSB platforms. The ideal candidate has solid experience in Java, Openshift, API development, and backend integration.

Requirements

- Strong proficiency in Java (JDK 8+) with experience in backend development and API integration (RESTful services, Java EE or Spring Framework);
- Hands-on experience with JBoss, ESB, OSB and OpenShift for hosting and maintaining enterprise applications and interfaces;
- Database management expertise with relational systems (MySQL, PostgreSQL, Oracle) and solid SQL skills;
- Unix/Shell scripting skills for deployment, automation and troubleshooting in backend environments;

- Proficiency with CI/CD pipelines and Git, ensuring efficient version control and continuous integration practices.

Nice to have

- Knowledge of NoSQL databases;
- Basic understanding of web technologies (HTML, CSS, JavaScript);
- Familiarity with modern DevOps tools and workflows.

Location: Ticino, Switzerland.

Availability to work on-site is required.

What we offer you

At ALTEN, you benefit from a permanent contract, access to cutting-edge projects with top-tier clients and opportunities for both national and international growth. We support your development with certified trainings in technical and soft skills.

Apply now and grow with us – we believe in building the future together!
